

The heavier gauge design of Medium Duty Floor Cable Protectors addresses cable trip hazards... while providing effective protection for cables.

The pre-split back enables users to simply retro-fit the profile over the cables. Features combine so that cables can be contained within the cavity, with minimal risk of movement.

The unique connector pins provide an effective friction-fit connection that can be pushed-in, then later pulled apart, in adjoining lengths – to cover whatever length of cable is required.

- Ideal for areas with regular foot traffic
- Protect cables, and address a common cause of trips and falls
- 30mm x 10mm cavity
- Ribbed non-slip base, pre-split rear for ease of use
- Flexible PVC - Neat tapered design, lengths uncoil to lay flat
- Fully safety tested and certified to BS EN 60670-1:2005

| | |
|---------------------------------------|--|
| Produced from flexible PVC | Flexible to uncoil and lay flat, no adhesive tapes required Abrasion resistant |
| Popular usage | To protect cords across floors, and eliminate trip hazards For health & safety Ideal for areas with regular foot traffic |
| UV stabilised | Yes |
| Cavity size | 30mm (W) x 10mm (H) for up to 3x 8mm (outer diameter) cables |
| Dimensions | 83mm Width - Available as 1.8m or 9m length |
| Weight | 1.8m = 1.3kg (boxed) 9m = 6.5kg (boxed) |
| Quality approvals | Fully safety tested and certified to BS EN 60670-1:2005 PART 1 |
| Available colours | Black |
| Supplied with 2 connector rods | To push-in, pull apart Length 10cm Ribbed for friction fit To make longer lengths PVC, can bend & flex |
| Packaging | Usually supplied coiled in polythene bag or cardboard box |
| Recyclability | Yes |
