

## GENESIS-5s-BM5-IXO-W

The GENESIS-5s-BM5-IXO-W is a multi-format 5MP bullet camera that is IP67 weatherproof this camera has a motorised 2.7~13.5 Lens. For night vision this camera has SIRUS / STARLIGHT technology allowing the camera to operate in colour in low lux conditions at up to 80m range.

The GENESIS-5s-BM5-IXO-W at default supports HDCVI video format but with the integrated DIP switch on the cable the camera format can be changed to HD-TVI, AHD and CVBS.

The latest HDCVI standard allows for extremely long transmission distances without any loss of quality. It supports distances of up to 700m (5MP) via coaxial cable and up to 300m via UTP cable using Baluns.

The camera has an integrated broadcast quality microphone that can send the audio signal over the coax cable for recording on a compatible recorder.
