GENESIS-5s-DF5-IV-W-2.8

The GENESIS-5s-DF5-IV-W-2.8 is a multi-format 5MP dome camera that is IP67 weatherproof and IK10 Vandal Proof, this camera has a fixed 2.8mm Lens. For night vision this camera has SIRUS / STARLIGHT technology allowing the camera to operate in colour in low lux conditions.

The GENESIS-5s-DF5-IV-W-2.8 at default supports HDCVI video format but with the integrated DIP switch on the cable the camera format can be changed to HD-TVI, AHD and CVBS.

The latest HDCVI standard allows for extremely long transmission distances without any loss of quality. It supports distances of up to 700m (5MP) via coaxial cable and up to 300m via UTP cable using Baluns.

The camera can also transmit audio from a microphone via the built in audio input.
